## Getting Started

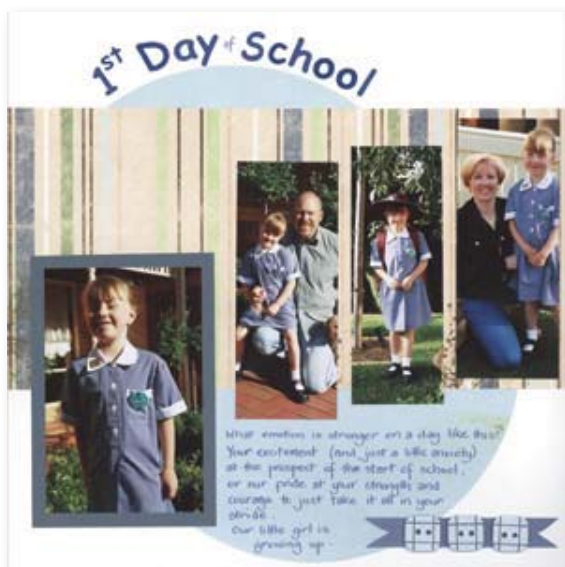

Help preserve school memories. Artwork, report cards and other memorabilia are securely stored in Portrait Sleeves.

We recommend the Power® Sort Memorabilia Box for sorting and storing school-related photos and memorabilia.

If your child is just beginning her/his school years, consider labelling your compartments by subject or interest area. Items brought home from school can be filed and stored throughout the year.

If your child already is attending school, you may want to label your folders by year and start collecting items to be filed into the appropriate year's folder.

If you have oversized artwork that you would like to preserve, we recommend you scan and print images.
