Getting Started

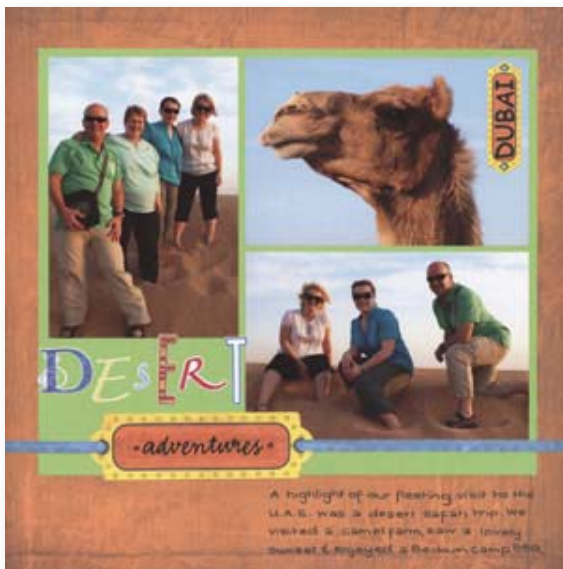

Imagine that your holiday album is a story being told to friends and family.

Create chapters that outline the beginning, middle and end of your travel adventure.

Use the Power® Sort Memorabilia Box for sorting and preparing your materials. Label your compartments using the chapters on your list.

Memorabilia and keepsakes can be preserved in your photo album using Photo Mounting Corners or Memorabilia Pockets.

Document every day of your travel adventure with highlights recorded onto Storybox Photo Mats & Journaling Boxes, and create journaling boxes that are ready to place into your album upon arrival home.
