- Page Protectors

Getting Started

Wedding albums typically have three parts: the preparations, the main event and the celebration.

Use any of the products listed above to help add those all-important accents to the album pages.

Use and 8" x 8" Coverset to create a shower gift. Or, create a reception surprise album by pre-decorating album pages and filling the pages with photos developed at a one-hour photo lab.

Memorabilia can be preserved using Photo Mounting Corners, Memorabilia Pockets or Side-Loading Portrait Sleeves.

Wedding albums make great gifts, too. A 8" x 8" Coverset makes a great thank-you for the bridal party as well as mothers of the bride and groom.
